

GENERAL CALL OUT TO ALL MEMBERS OF INUKJUAK

Title: Environmental Monitor

Location: Innavik hydroelectric project - Inukjuak

Are you looking for a job and would like to discover the exciting profession of Environmental Monitor?

Would you like to participate in the construction of the hydroelectric plant?

Are you interested in nature and protecting your environment?

Are you available from April to December?

Join the Innergex team and work with skilled and passionate employees who care about building a better world.

Your motivation, your interest in renewable energy project development and construction, your wish to learn, your autonomy, and your collaborative skills will make you the ideal candidate.

Your day-to-day!

- Review and understand relevant environmental requirements for the project including regulatory permits and approvals, environmental legislation, best management practices, and project environmental documents.
- Observe, record and report of the effectiveness of mitigation measures and techniques specified in project documents.
- Act independently, recognize environmental risks associated with construction, identify, document, report and communicate environmental incidents, and communicate issues effectively to all Projects parties.

Your skills, our requirements!

- General interest in the environmental protection field will be an asset;
- Experience operating 4x4 vehicles;
- Basic field orientation skills (mapping, compass, GPS);
- English, spoken and written; French, an asset.

Additional considerations:

- Work done the majority of the time on the land;
- You need to have or get a Class 5 Territorial Driver's licence;
- Training and support will be provided in the field;
- If no ASP card, training will be provided.

Send us your resume at info@innavikhydro.com by April 23, 2021.
